The diagram illustrates a cross-section of a casting mold assembly. It is divided into three horizontal layers, each with a label and a reference code in parentheses:

- Top Layer:** Labeled "50" x 252" - CASTING HEIGHT - 0" - (P3)". This layer is represented by a solid line at the top and a dashed line below it, forming a rectangular shape.
- Middle Layer:** Labeled "50" x 252" - BOX RISER 6inW, Variable Ht - 28" - (P2)". This layer is represented by a dashed line at the top and a dashed line below it, forming a rectangular shape.
- Bottom Layer:** Labeled "50" x 252" - BX Separate Base Slab - 6" - (P1)". This layer is represented by a solid line at the bottom and a dashed line above it, forming a rectangular shape.

The dashed lines indicate the boundaries between the different components of the mold assembly.
